

MOR SERIES

Pivoting Gun Modules

The Valco Melton MOR Gun Series brings a unique solution to several of your application needs. A versatile, easily configurable design provides increased opportunity for the hot melt application market. With the ability to quickly change positions for various bead, multibead, reduced cavity, and zero cavity applications, pivoting modules present unlimited solutions for a range of applications needs by using one simple applicator.

- Easy pattern conversion
- Flexible configuration for infinite applications
- Minimal installation space required

Modules are allowed to pivot in both directions

Modules are easily and quickly adjusted while under working conditions

Close bead to bead positioning for close applications

A hardened aluminum is used to prevent erosion from extensive adjustment and to promote long life

Waterproof version

100% Compatible connectors

Valco Melton MOR Series Applications

Valco Melton's range of application products offer a complete selection of hot melt components and support:

- RTD hot melt hoses
- Manual and automatic dispensing valves
- Nozzle and applicator styles
- Mounting bracket packages
- Solid-state pattern control systems
- In-line filters
- Replacement parts for competitive systems
- High-performance hot melt adhesives

ISO 9001
